Mr. Joseph D. Salama
President
S-Works Construction Corporation
5602 General Washington Drive
Alexandria, VA 22312

Dear Mr. Salama:

I would like to take this opportunity to recognize the outstanding job that you, your staff, and subcontractors did in the recent completion of the SkyOnline project. It was a rare pleasure to have been involved with a general contractor as dedicated to quality workmanship, customer service, commitment to schedule, and collaborative team effort, as was displayed by S-Works Construction. From project kick-off through the recently-completed punch list, every member of the S-Works team represented the highest level of courtesy, professionalism, and dedication as I have encountered. You have my sincerest thanks for the excellent service you provided SkyOnline.

I would also like to provide special recognition to the project superintendent, Mr. Desi Gonzales. Desi was tireless in his efforts to complete this project on time, and seemed to take special pride in the level of quality of the completed work. More importantly, Desi never wavered in the professional attitude displayed to myself, the client, the owner's representative, and the subcontractors. Even in the most difficult of situations, he maintained his confident outlook, and always offered a smile. This positive attitude had a pervasive effect on the entire job site that should be the standard by which all projects are measured.

Please consider myself a favorable reference for your upcoming endeavors. I look forward to the pleasure of working with S-Works Construction in the future.

Sincerely:

Todd S. Virts
Project Architect
